## Focused on the future

Working with us, you can look forward to good business. With our wide range of leading-edge products and comprehensive distribution network, we are perfectly set up to meet current and future demands. And we're always interested in hearing our partners' ideas and suggestions.

Our innovative capacity and quality as an original equipment manufacturer are available to you in each product in the replacement parts range – for vehicle diagnostics, fuel systems, engine actuators and sensors. It's your guarantee of lasting success in the automotive world of tomorrow.

## Product Overview

### Common Rail Diesel Injector

Our piezo servo injectors ensure extremely precise injection and ultra-fine atomisation of diesel fuel for highly efficient combustion. Direct-drive piezo injectors make it possible to achieve greater fuel efficiency in powerful engines.

### Diesel Common Rail Pump

Our high-pressure diesel pumps have been specially developed for the latest generation of common rail diesel injection systems. They enable a compact design and low weight, and are dimensioned for pressures up to 2,500 bar.

- Continental's diesel common rail systems offer the following advantages:
- Compliance with current and future emission limits.
  - Reduced CO<sub>2</sub> emissions
  - Increased performance, with lower fuel consumption and quiet operation
